

MERSEN ELEVATOR SWITCH PANELS: STOCKED MODELS FOR QUICK SHIPMENT

ES1T48R1KGN1DSQ

Mersen now offers 8 models of elevator switches available for quick turn-around.

When inspection is looming and you have not ordered a panel yet, there are both basic models and models which are loaded with options available in stock. These options are described in the table below.

Information on these models is also available in EP Connect.

In cases where you have time, Mersen still offers its industry leading 90,000+ configurable models. Use your product configuration and pricing sheet to obtain a base price.

NEW Part Number	Description
ES1T20R1KGN1DSQ	100A 208V, Shunt Trip Switch Panel, with standard voltage monitoring relay, 120V coil interface relay, keyed test switch, green pilot light, 100A neutral lug, 1 form C auxiliary contact, alarm contact, handle activated microswitch for testing, NEMA 1 enclosure, integral 75kA SPD, quick shipment.
ES6T48R1AQ	60A 480V, Shunt Trip Switch Panel, with standard voltage monitoring relay, 120V coil interface relay and 1 form C auxiliary contact, NEMA 1 enclosure, quick shipment.
ES1T48R1AQ	100A 480V, Shunt Trip Switch Panel, with standard voltage monitoring relay, 120V coil interface relay and 1 form C auxiliary contact, NEMA 1 enclosure, quick shipment.
ES1T48R1KGN1DSQ	100A 480V, Shunt Trip Switch Panel, with standard voltage monitoring relay, 120V coil interface relay, keyed test switch, green pilot light, 100A neutral lug, 1 form C auxiliary contact, alarm contact, handle activated microswitch for testing, NEMA 1 enclosure, integral 75kA SPD, quick shipment.
ES2T20R1AQ	200A 208V, Shunt Trip Switch Panel, with standard voltage monitoring relay, 120V coil interface relay and 1 form C auxiliary contact, NEMA 1 enclosure, quick shipment.
ES2T48R1AQ	200A 480V, Shunt Trip Switch Panel, with standard voltage monitoring relay, 120V coil interface relay and 1 form C auxiliary contact, NEMA 1 enclosure, quick shipment.
ES2T20R1KGN2DSQ	200A 208V, Shunt Trip Switch Panel, with standard voltage monitoring relay, 120V coil interface relay, keyed test switch, green pilot light, 200A neutral lug, 1 form C auxiliary contact, alarm contact, handle activated microswitch for testing, NEMA 1 enclosure, integral 75kA SPD, quick shipment.
ES2T48R1KGN2DSQ	200A 480V, Shunt Trip Switch Panel, with standard voltage monitoring relay, 120V coil interface relay, keyed test switch, green pilot light, 200A neutral lug, 1 form C auxiliary contact, alarm contact, handle activated microswitch for testing, NEMA 1 enclosure, integral 75kA SPD, quick shipment.
